Professional Summary — Data Analyst with 2+ years of experience in business process analysis, reporting, and ERP consulting. Skilled in SQL, Python, Tableau, and Excel, with a track record of leading cross-functional initiatives, analyzing operational workflows, and delivering cross-functional implementation milestones up to 25% ahead of schedule through stakeholder collaboration and process improvement.

Technical Skills

Languages: Python, SQL

Libraries: Pandas, NumPy, Matplotlib, Seaborn

Databases: PostgreSQL

Analytics & Business Skills: Reporting, Dashboards, Business Process Analysis, Gap Analysis, Root Cause Analysis, Workflow Optimization

Data Visualization: Tableau

Analytics Tools: Advanced Excel, Jupyter Notebook

Business Analysis: JIRA, Draw.io, Axure, Balsamiq

Experience

Tekgenio, Odoo Functional Consultant

April 2025 – Present

Business Process Analysis, Reporting & Workflow Optimization

- Led **requirements gathering**, workflow discovery, and **business process analysis** across **7 implementation projects**, translating operational needs into process maps and functional specifications for clients across **5 countries**.
- Analyzed cross-functional **Purchasing, Receiving, Quality, Manufacturing, Assembly, and Logistics** workflows for a pharmaceutical manufacturing client, designing automated processes to improve operational visibility and support user adoption.
- Delivered core implementation milestones up to **25% ahead of planned timelines** by completing workflow design, validation, and testing activities early, enabling extended stabilization before go-live.
- Conducted **gap analysis** and **root cause analysis** during implementation, creating functional specifications and identifying process issues before end-user adoption.
- Built **reporting and dashboard solutions** to analyze product sales performance and operational trends, helping stakeholders monitor sales patterns, product movement, and inventory needs.
- Developed **operational reports** for help desk and timesheet processes, providing visibility into **ticket resolution timelines**, employee utilization, and **service performance metrics**.

Emporia Advertising Agency, Creative Strategist

July 2024 – March 2025

Client: City Craft – B2C On-Demand Service Application

- Gathered and analyzed user requirements for an on-demand service application, coordinating with **development and marketing teams** to align app features with business goals and user needs.
- Conducted **market research** and **competitive analysis** to identify process bottlenecks, support project planning, and contribute to a **15% reduction in project delays**.

Case Studies

Portfolio: vakshay11.github.io

- **Amazon India: E-Commerce Revenue & Customer Segmentation Analysis (SQL, Excel)**
Analyzed payments, pricing, revenue, customer segments, and monthly growth trends; identified **73.9% credit card order share**, top revenue categories, repeat customers, and loyalty segments to support pricing, promotions, inventory, and retention strategies.
- **Placed: Candidate Employability & Placement Success Analysis (Python, Tableau)**
Analyzed academic, technical, practical, cognitive, and professional factors driving placement success; identified **82%–87% placement rates** for elite employability profiles and **15%–25% rates** for high-risk profiles, highlighting technical strength as a key placement driver.
- **Bumble: User Behavior & Statistical Segmentation Analysis (Python)**
Analyzed 59,000+ user profiles to evaluate demographics, profile completeness, income patterns, and regional behavior; identified 65% single users, 18–25 as the dominant age segment, and less than 10% profile completeness, informing onboarding, personalization, and localized engagement strategies.

Education

MLR Institute of Technology

Bachelor of Technology in Mechanical Engineering

NextLeap Data Analyst Fellowship – Top Fellow

Hyderabad, Telangana

August 2019 – June 2023

May 2026
